## PROJECTS

### Portfolio

My portfolio is a digital hub that showcases my professional accomplishments and skills, Visitors can browse highlights of my previous work, GitHub project, and ways to contact me for potential opportunities

### To-Do-List

This Project is a simple todo list application that allows you to manage your task and stay organized

### LandDeal

This application simplifies the process of buying and selling land by automating the documentation process. It allows sellers and buyers to generate legally binding contracts without the need for a manual notary.
